Y-cam

Protect Outdoor Camera
Weatherproof HD Wi-Fi Motion Activated Cloud Security Camera

Y-cam lets you see and hear what's happening outside your home or business from anywhere using your smartphone[1] or tablet and ensures your property and loved ones are safe day or night.

Y-cam Protect Outdoor Camera instantly alerts you when motion is detected. Watch live or review your last seven days of recordings which are securely stored in your cloud account, safe from theft. Includes Free rolling 7 days cloud storage*. Add as many indoor and outdoor cameras as you like and manage them from one account.

Includes Free Rolling 7 days Cloud Storage*

Save the clips that matter. Every movement detected during the last 7 days is recorded* and stored in your secure online account, ready to view on your smart phone.

Weatherproof

The sleek compact design of Y-cam Protect Outdoor Camera will complement the exterior of your property. This robust outdoor security camera is weatherproof to IP66 international standards and is perfect for watching driveways, observing gardens and outbuildings. Complete with a fitted sun shield to deflect heat away from the camera, keep a watchful eye over your property come rain or shine.

Motion Activated Alerts and Recordings

See what happens when you are not there. Y-cam detects and notifies your smartphone[1] instantly when motion is detected in your home. Set up your motion recording zone on areas such as access points and vehicles; to ensure you are only alerted when it matters.

Safe and Secure

Even if your security camera is vandalised or stolen, your clips are safe in the cloud and fully protected using industry standard encryption.

Internet Friendly

Y-cam Outdoor Camera only records when something happens so it doesn't need to constantly battle for the internet with other connected mobile devices in your home. Enjoy minimal impact on your surfing and download speeds and stay within your data allowance.

Let's get mobile!

Download the Y-cam App FREE from the iOS App Store or Google Play. View your recorded videos and stream live from anywhere at any time, as long as you are connected to the internet.

Location Recording

Automatically deactivates your camera's motion recording when you arrive home, and activates recording when you leave, based on the location of your smartphone[2].

On Demand Recording

Capture that moment; record what you want, when you want at the touch of a button. Just hit record when watching live to capture a moment in time up to five minutes long.

[1] As long as you have an active internet / data connection.

[2] Message will be sent within approx. 100-200m of set location.

Product

Name: Y-cam Protect Outdoor Camera
Part code: HMHDE08
EAN code: 5060158901388

Camera

Image resolution: 1 megapixel (1280 x 720), HD 720p, Far Focus lens
Field of view (Diagonal): 109°
Focal length: 3.6mm
